## PSM 1 (SEC\_3032)

### PROJECT PROPOSAL & SUPERVISION CONSENT FORM

Session/Semester: .....

**Instruction: Please complete and submit to your program PSM1 committee member.**

**Student:** Please complete student information in detail. The proposal must be reviewed by the supervisor before submission.

**Supervisor:** Please complete your consent, signature, stamp and date. Please review student's proposal before submission.

**Note:** Students are ONLY ALLOWED to do Research type projects if they have a CGPA of 3.3 and above.

---

#### SECTION A: STUDENT INFORMATION

---

| <b>Project Type:</b>  | <input type="checkbox"/> Research<br><input checked="" type="checkbox"/> System Development            |

*\*(Please follow your preference. Proposal No. 1 – the highest priority, followed by Proposal No. 2 Each student may propose a maximum of 2 topics).*

**Problem Background and Proposed Solution:**

Chiller in Malaysia is inefficient and wasting a lot of energy.

**Objectives:**

IOT to control the speed, temperature and close the Chiller on certain temperatures

**Scopes:**

Focus on Chiller Lab in MJITT, Universiti Teknologi Malaysia

**Project Requirements:**

|                                                |                     |
|------------------------------------------------|---------------------|
| <b>Software</b>                                | C#, C++, Java       |
| <b>Hardware</b>                                | Arduino, Desktop PC |
| <b>Technology/Technique / Method/Algorithm</b> |                     |
| <b>Network Elements</b>                        | localhost           |
| <b>Security Elements</b>                       | password            |
| <b>Project Area:</b>                           | IOT                 |
